Chandler Thinks the Dominion Coal Company Might Be Aired with Profit.

GOVERNOR RUSSELL IN A DUAL ROLE

Prime Mover in the Coal Scheme and Adviser of the President-Sundry Civil Appropriation Bill Passed with Numerous Amendments.

WASHINGTON, Aug. 2 .- But one more appropriation bill, the deficiency, remains to be acted on by the senate, the sundry civil having been passed today after a three days' discussion. The most important amendments adopted today were the increase of the quarantine fund from \$624,000 to \$1,-000,000 and donating 1,000,000 acres of "desert" lands to the states to which the desert land laws apply, as well as to the states of Nebraska, Kansas, Utah, Arizona, New Mexico and Oklahoma.

The report of the conferees on the District of Columbia appropriation bill was agreed to. The Hatch anti-option bill was reported by Mr. Washburn from the committee on

agriculture and placed on the calendar.

Mr. Gray, chairman of the special committee to investigate the charges of bribery against senators, presented the report of the committee. By the resolution of June 11, the committee was also instructed to investigate certain charges against members of both houses in regard to the construction and charter privileges of street railways in the District of Columbia, but no evidence or testimony had been submitted to the committee and he therefore asked that they be

discharged from further duty under the resolution of May 30.

Messrs. Lodge and Davis (republicans) and Mr. Allen (populist) made supplemental re-ports. Objection was made by Mr. Chandler to the request of the committee to be dis-charged, at least until the report could be read and examined, and accordingly the request went on the table for the present.

The following house bills were then passed: Placing James William Albert on the re-tired list of the army with the rank of major of engineers; placing Charles B. Stivers on the retired list of the army as captain of infantry; for the relief of George B. Crosby; to donate four condemned canon of the navy to Sac City, Ia., to be placed at the pedesta of the soldiers' monument, and for the construction of a military road from El Paso to Fort Bliss, Tex.

The resolution effered yesterday by Mr. handler directing a special committee to investigate the Dominion Coal company of Nova Scotia, whether it was organizel is being conducted in the expectation that congress would repeal the tariff tax on coal, whether any officers of the government are interested in the company and whether any assurances the duty would be removed were given the company, and if so, who gave such assurances and whether steps are being taken to fulfill the assurances, was laid before the senate, and Mr. Chandler urged its adoption. RUSSEL KNOWS A SNAP.

Chandler claimed that John E. Russel of Massachusetts avowed his connec tion with the Dominion Coal company, and was to be an avowed participant in the profits to come to the company from the removal of the duty on coal. He came to Washington to give counsel and advice to the president and urge him to stand fast on the democratic principle of free coal. The president then wrote a letter without addressing it to any one in particular, dating it July 2, as a sort of stock in trade or a charge of dynamite, ready to be launched without warning on some unsuspected per-son. It was accordingly sent to Mr. Wil-son, and after due course of time and after an agonizing birth (who was the accoucheur at the advent he did not know) it saw the light of day, very much to the surprise of the senator from Maryland (Gorman) and the senator from Tennessee (Harris). He thought Mr. John E. Russel, as the adviser of the president on the removal of the duty would bear investigation, and he believed the facts which had been sub-mitted not only warranted the senate investigating the charges, but required it

Leaving the subject of coal, he took up the question of sugar, and arraigned the senate for its action in insisting on the lifferential duty given the refiners, speaking of the one-eighth differential as the one-eighth donation to the trust whose president, Mr. Havemeyer, admitted having ared out its money like water.

The question was then put on the motion by Mr. Hill to lay the Chandler resolu-tion on the table, and the vice president de-clared it carried, but Mr. Chandler subseantly asked that the vote be reconsidered, and this being done, the motion to lay or the table was defeated, 15 to 30. SUNDRY CIVIL BILL PASSED.

The resolution went to the calendar under the rules, and it will require a vote of the senate to again bring it up for consideration. The sundry civil bill was then taken up. Amendments were adopted to pay the widow of the late Senators Vance of North Carolina and Stockbridge of Michigan \$5,000 each The appropriation for quarantine purposes was increased by \$376,000, so as to make the total amount \$1,000,000. An amendment was added to grant 1,000,000 acres of sur veyed desert lands to each of the states t which the desert land laws are applicable and also to the states of Kansas and Nebraska and the states which may be constructed from the territories of Utah, New Mexico, Oklah ma and Arizona, under certain stipulations.

An amendment appropriating \$300,000 for the recoinage of the uncurrent silver coin in the treasury was adopted. The bill with its many amendments was then presented and

The general deficiency bill was then taken up, but was laid aside, and the senate, at 5 o'clock, went into executive session, and a

A reply had been received from the War department. Mr Grosvenor had no criticism to offer upor the ground of the court martial, viz: That a private soldier had no right to disobey the commands of his superiors, but he in-sisted that the officer ordering the Sunday target practice did so in plain victation o the orders of 1862 and in direct violation of the statute of Nebraska. Mr. Grosvenor passed some severe strictures on the cour martial and the general who had approved it and ordered its decree executed.

"The action of that brigadler general," said he, "was the outgrowth either of the most stolid and inconceivable ignorance or a total disregard of all that was right and

Old Glory Will Afford Protection to Both

Chinese and Japanese. WASHINGTON, Aug. 2 .- A telegram reselved at the Japanese legation says that the Chinese government has notified Japan that the Chinese consuls throughout Japan would be withdrawn. In consequence of this action the Japanese government has notified its charge d'affairs at Pekin and its consuls throughout China to withdraw.

The Japanese charge d'affairs here has asked this government to exercise its good offices to afford them, through its repre-sentatives in China, all the protection that can be rendered consistently to Japanese residents during the present trouble. No formal statement that a state of war exists between China and Japan has as yet been communicated to the Japanese legation

At the request of the Chinese and Japanese governments, made through their representatives here the State department has instructed United States Minister Dunn at Tokio and Mr. Denby, in charge at Pekin, to ake under the protection of the United States the citi-zens of China in Japan and of Japan in China. This is a distinctively war measure and although it cannot be learned at the State department that it has been regularly notified of the existence of war between China and Japan, this movement on the part of Secretary Gresham indicates that he has been so advised and is proceeding on that information:

This is not the first time that the flag of the United States has afforded protection to foreigners in hostile countries, for during the Franco-Prussian war the United States minister at Paris took under his care the Germans resident in that city. The selection of the United States in this case by both parties is regarded as an evidence of their belief in our absolute impartiality.

EXTENDING AMERICAN TRADE.

Reports Sent in by United States Consuls of Great Assistance to Exporters.

WASHINGTON, Aug. 2 .- For many nonths the bureau of statistics of the State department has been making systematic movements to procure from our consuls in foreign ports reports indicating how American trade may be extended in the countries where they reside. The information thus collected has in many cases been of great value to American exporters. One of the atest reports of this kind comes from Consul Hall at San Juan, Porto Rico. points out the peculiarities of the Spanish taste in goods, dwells upon the importance of proper packing and presentation of the goods through responsible agents and se-verely condemns as wasteful and ineffective promiscuous distribution of circulars Another report from Consul General Rick man at St. Gall is of special interest to mea

PATRIOTISM OF THE OLD LINE

Veterans of Nebraska and Kansas Manifest Their Devotion to the Republic.

COMPROMISE WITH ANARCHY

Day of Interesting Events in the Interstate Encampment at Superior-Ingalls Will Address the Patrons of Camp Lincoln Today.

CAMPI LINCOLN, SUPERIOR, Neb., Aug. 2.- (Special to The Bee.)-Were the people who are in Superior today to remain here permanently this would be the third largest city in the state of Nebraska. There are from 20,000 to 25,000 people who are crowding Camp Lincoln and Military avenue swarms like the Midway Plaisance a year ago. Acres and acres of the field south of the camp are covered with every imaginable kind of a vehicle. Farmers have come in with their whole families, some of them traveling half of the night to attend the great reunion. For many of them this is the only real recreation they have during the entire year, and they look forward to it with great expectations.

Nor were they disappointed; everything seems to have conspired to make this a great week and a great day. Tuesday's rain has settled the dust and put new life and vigor into the corn. And judging from the weather one would call this the last of September rather than the 1st of August. There are attractions for young and old in the border of the tented city, where shownan and fakir are howling themselves hoarse, and not entirely in vain.
This is a Grand Army of the Republic

encampment, but the fact is not forgotten that the old soldier has a vote, and elec-tion time is close at hand. There are political colonels as well as political farmers, and this is their day. The friends of Colonel Morrill from south of the line are colonel Morrill from south of the line are all wearing sunflowers for the republican candidate for the governor of Kansas. Colonel Tom Majors is around grasping the hands of all the comrades and kissing all the bables. Colonel Chris Jensen and Cap-tain Lyon of Nelson, H. W. McGrew, state bank examiner; Hon. W. E. Andrews, Gen-eral Church Howe, General Gage, J. B. Erion of South Omaha, Captain Short, ex-Governor Thayer, Captain C. E. Adams, General Dick Blue of Kansas, Colonel Dawes of Kansas and a host of other men well known in politics are in camp. With the exception of Governor Crounse, who was uddenly called east, the management has not been disappointed by any of their speakers. Ex-Senator Ingalls of Kansas and John M. Thurston of Omaha will be here

to speak tomorrow.

This morning all the bands in formed in procession, headed by Captain Adams and his mounted staff, and, followed by half the veterans in camp, marched to the depot to escort several of the speakers who were to arrive to the camp. When it is remembered that the young man who was 20 when the war opened is now 53 it is almost a painful sight to make the old veterans form in line. The boys in blue who stood up so straight are now bent double with age. Canes and crutches are a necessity, and the eyes that could sight a rebel at 300 yards need spectacles see 100 feet.

OLD TIME ENTHUSIASM. The program was opened by a rousing horus in "Marching Through Georgia," and chorus in afterwards Major Hanback introduced ex-Governor Thayer. "This is an imposing scene," he said, "the sight of these old veterans renewing friendship of march and camp fire. It has often been asked who put down the rebellion. Like George Washington, I never tell a lie. I say that Tom Majors and I did it, and if this will introduce the subject of politics, I want to say right here that I am for Tom Majors for governor. We fought side by side through the war and we will fight together now. I am a republican, but I say I uphold Grover Cleveland in his suppression of the recent insurrection at Chicago. This is the spirit of anarchy abroad, and when the French president is assassinated in the street, when nnocent women and children are murdered bomb throwers, when anarchists burn private property from a spirit of wantor destruction, the men who once preserved destruction, the men who once preserved the union should see that it is not destroyed. Liberty of America should be the liberty

Major E. N. Morrill of Kansas then took the stand. "When the rebels fired at Fort Sumter," he said, "a multitude of men responded to the call to uphold the old flag That was a grand sight, but it was soon to be followed by another and still grander sight. It was this million of men returning orderly and peacefully to their homes. They had lived through every hardship and suffering that man can endure, and now government be too generous to thes The government has not been genrous. It has barely been just. Here are opperheads who never saw powder smoke that tell us that a pension is a fraud and a steal. There may be a few such, but if there is a single fraud drawing a pension there are thousands of deserving who cannot obtain their just deserts.

He proceeded to roast Cleveland for veto ing the dependent pension bill, and defended the pension act of the Fifty-first congress as the best measure obtainable at the time After adjournment for dinner the audi ence reassembled to listen to Lieutenani Governor Majors, who said: "I would speak o you of what is going on around us today All about us is a spirit of unrest. Labor s dissatisfied, workshops are closed and the condition is such that people begin to ask, 'Have we a government?'

NEVER VOTED FOR CLEVELAND. "I want to say I never cast my vote for Grover Cleveland and never will, but vant to say that in calling out the federa roops to suppress the Chicago strike Grover lieveland performed the most meritorious ac f his life. I don't agree with itically, but when standing for law and order, you, I and every loyal man do should be honest enough to say so. He then spoke of the object of reunions, not to open old sores, but to keep green nemories of noble deeds. "One last word bave to say to the Grand Army of the Republic, they must stick together. Clore up ranks as we did when we saw a comrade fall and stand by one another through thick and thin, and above all stand by law and order, and we will make this nation a model before the world. The time is soon come when we shall have no more re unions, but till the last man drops stand together. Educate your sons to live ar public is in danger tell them of your live General Dick Blue of Kansas, the repub lican nominee for governor, began by humor-ously announcing to the audience, more or In Grand Army reunions we

They take into account too little of suffering and hardship. Did you ever call the roll of Grand Army of the Republic posts to find how many bore mark of bullet and saber on their persons? Toda; is an age of peace, and we don't think second such conflict possible, but the demon strations of the past few months and few

weeks give us grave fears." He reviewed the Coxey movement and reent Pullman struggles.
"Strikes should be the methods of last resort," he said. "It gives too much chance to anarchists and the lawless element. The great question is, shall we have government or anarchy? We have preserved the union once in the hour of danger, and we'll do so a while longer."

Was Prepared to Slaughter Indians. NEBRASKA CITY, Aug. 2 .- (Special t The Bee.)-Robert Littlefield, aged about 18 was arrested this morning, charged with

stealing \$100 from his uncle, B. C. Bobbett, who lives near Sidney Is. Young Littlefield arrived in the city last night and purchased a revolver, bowie knife and belt, and was probably proparing to go on the warpath today, when his arrest cut all such visions short. The sheriff of Fremont county and the boy's uncle arrived here this afternoon and took him home. Nearly all the stolen money was recovered:

Frank Dillon and Hattle Ross, who are charged with robbing A. P. Duffy of \$570, were last evening bound over until Saturday in \$600 each. Nate Vance and Alex Givwho were arrested as accomplices, were discharged.

Nehawka Couple Arrested for Cruelty to Their Child. PLATTSMOUTH, Neb., Aug. 2.-There is trouble brewing down at Nehawka, a lively little village in the lower part of the county. A woman named Mrs. Peter Hanson, living in that town, is charged with having picked up her infant during a fit of anger and thrown the little one violently to the ground. The child was not injured seriously, but Mrs. Hanson's neighbors resent her brutality strenuously. The husband was an inmate at the Lincoln asylum for a year or more, and the neighbors believe that the woman is also weak in her mental department. Both have been arrested by the Nehawka constable, and it is highly probable that they will be brought here to the county seat for an examination before the insane

The preliminary examination of the three en who broke into a Missouri Pacific freight car in the local yards early yesterday morn-ing was had this afternoon. The complaint of burglary was dismissed against Smithlop and Latour, the white men, and they were given a jail sentence for pettit larceny. LINCOLN, Aug. 2 .- (Special to The Bee.)-At the rate of \$2,500 an hour is the way Edwin R. Tallmadge values his time when spent in what he terms the "loathsome" Lincoln city jail. Tallmadge is a youth of 18, who through his next friend has brought suit against the Lincoln Salt Lake company for \$5,000 for false imprisonment. In his petition he states that some time ago he went to Burlington Beach armed with the necessary 16-cent admission ticket, which he presented at the gate. The gatekeeper eyed him suspiciously and finally had him arrested and carted away to jail, alleging that the ticket was forged. He was detained for two hours, suffering great mental and bodily pain and injury to character. For all of which he thinks the above sum is only a reasonable compensation.

Monday the city council accepted the O street viaduct over the B. & M. and Union Pacific tracks, and the old road was handed over to the railroads. Formerly in order to reach the Union Pacific freight and passenger depots it was necessary to cross the B. & M. tracks, and this morning, in order to show its authority, the latter road proceeded to blockade all its lines under the viaduct, effectually preventing any entrance to the Union Pacific depot except over the viaduct, and as this extends for a couple of blocks beyond the depot quite a detour is necessitated. It was a surprise party to the backmen others using the road, as well as to the Union Pacific, but they had to submit to the inevitable. Later in the day the B. & M. broke its cars, leaving the sidewalk open, but vehicles are still barred.

for women, according to whether they do, or don't do, their washing in a sensible way. If they use Pearline, it means good, hard dollars saved. Pearline is economy. All that ruinous rubbing that makes you buy linens and flannels twice as often as you need to, is spared, to say nothing of your time and labor.

See the troubles that women have to endure with other ways of washing. There's that hard, wearingout rub, rub, rub, or the danger of ruining things with acids if you try to make it easy. Washing with Pearline is absolutely safe.

Send Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, it Back and if your grocer sends you samething in place of Pearline, be honest—send it back.

HEALTH MAXIMS,

"Six thousands persons die in New York City every year from wasting diseases. This statement, in the light of the knowledge that every one of these cases was in the first instance preventable, shows how desirable it is that everyone should understand how to avoid taking the disease."

These are the words of a well known physician, and here are some valuable suggestions made by him.

"It is indigestable food, and food taken at the wrong time which causes that condition of the system which permits the taking of cold. Whatever tends to weaken digestion and impoverish the blood, hurts the entire system and opens the way to disease.".

"The symtoms of indigestion are usually a flushed face, spots or blurs before the eyes, flashes of light, zig-zag lines or chains, sense of fullness over the stomach, belching, despondency, etc., often followed by the most severe headaness. These symposes are severe headaness. severe headaches. These symtoms are usu-ally relieved when the gas is expelled from the stomach."

"Whenever a person gets run down in strength, reduced in weight or becomes thin by reason of some wasting disease, it is very fashionable to commence what might be well called the stuffing process. Cod liver oil preparations, farinaceous foods, beef teas, concoctions of malt, cats, second rate wines, and beef extracts are given to the unfortunate person continually, thus ruining what little digestive power he has left and caus-ing untold suffering. If allowed to make a suggestion I would say, that in place of this, Pascola, the predigested food, should be given. This not only builds up sound, healthy flesh, but rests and strengthens the digest-

ive organs in a remarkable way."
"Food to the body is what fuel is to the engine. Life ceases when nourishment stops and the machinery won't go when the steam

"When a man suffers from indigestion there are seldom any fatal results, but when what the doctors call "complications" set in then is the time to pray."
"The germs of consumption have no power

over healthy tissue. Before they can attack or injure any one, that person must be run down in health in some way, either by wor-ryment, exposure or cold, long continued in-digestion, or over work or over study." Such persons should always exercise great care and use the best and most advanced discoveries. For this purpose Pascola is une-
